Management's Report

Management's Responsibility for Financial Statements

The consolidated financial statements and the notes thereto have been prepared in accordance with International Financial Reporting Standards and are the responsibility of the management of Loncor Resources Inc. (the "Company"). The financial information presented elsewhere in the Management's Discussion and Analysis is consistent with the data that is contained in the consolidated financial statements. The consolidated financial statements, where necessary, include amounts which are based on the best estimates and judgments of management.

In order to discharge management's responsibility for the integrity of the consolidated financial statements, the Company maintains a system of internal controls. These controls are designed to provide reasonable assurance that the Company's assets are safeguarded, transactions are executed and recorded in accordance with management's authorization, proper records are maintained and relevant and reliable information is produced. These controls include maintaining quality standards in hiring and training of employees, policies and procedures manuals, a corporate code of conduct and ensuring that there is proper accountability for performance within appropriate and well-defined areas of responsibility. The system of internal controls is further supported by a compliance function, which is designed to ensure that we and our employees comply with securities legislation and conflict of interest rules.

The Board of Directors is responsible for overseeing management's performance of its responsibilities for financial reporting and internal control. The Audit Committee, which is composed of non-executive directors, meets with management as well as the external auditors to ensure that management is properly fulfilling its financial reporting responsibilities to the Directors who approve the consolidated financial statements. The external auditors have full and unrestricted access to the Audit Committee to discuss the scope of their audits, the adequacy of the system of internal controls and review reporting issues.

The consolidated financial statements for the year ended December 31, 2016 have been audited by BDO Canada LLP, chartered professional accountants and licensed public accountants, in accordance with Canadian generally accepted auditing standards and the standards of the Public Company Accounting Oversight Board (United States).

Chief Financial Officer

Independent Auditor's Report

To the Shareholders of Loncor Resources Inc.

We have audited the accompanying consolidated financial statements of Loncor Resources Inc., which comprise the consolidated statements of financial position as at December 31, 2016 and December 31, 2015 and the consolidated statements of comprehensive loss, changes in equity, and cash flows for each of the years ended December 31, 2016, December 31, 2015, and December 31, 2014, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards and the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Loncor Resources Inc. as at December 31, 2016 and December 31, 2015 and its financial performance and its cash flows for the years ended December 31, 2016, December 31, 2015 and December 31, 2014 in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 2 in the consolidated financial statements which indicates the Company produced a net loss of \$497,610 for the year ended December 31, 2016 and as of that date the Company had a working capital deficit of \$1,150,458. These conditions, along with other matters as set forth in Note 2, indicate the existence of a material uncertainty that casts substantial doubt on the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

1. CORPORATE INFORMATION

Loncor Resources Inc. (the "Company") is a corporation governed by the Ontario *Business Corporations Act*. The principal business of the Company is the acquisition and exploration of mineral properties.

These consolidated financial statements as at December 31, 2016 and 2015 include the accounts of the Company and of its wholly owned subsidiaries in the Democratic Republic of the Congo (the "Congo"), Loncor Resources Congo SARL, and in the U.S., Nevada Bob's Franchising, Inc., respectively.

The Company is a publicly traded company whose outstanding common shares are listed for trading on the Toronto Stock Exchange. The head office of the Company is located at 1 First Canadian Place, 100 King St. West, Suite 7070, Toronto, Ontario, M5X 1E3, Canada.

2. BASIS OF PREPARATION

a) Statement of compliance

These consolidated financial statements as at December 31, 2016 and 2015 and for the years ended December 31, 2016, 2015 and 2014 have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

The accompanying financial information as at December 31, 2016 and 2015 and for the years ended December 31, 2016, 2015 and 2014, have been prepared in accordance with those IASB standards and IFRS Interpretations Committee ("IFRIC") interpretations issued and effective, or issued and early-adopted, at December 31, 2016.

The date the Company's Board of Directors approved these consolidated financial statements was March 28, 2017.

b) Continuation of Business

The Company incurred a net loss of \$497,610 for the year ended December 31, 2016 (year ended December 31, 2015 - \$2,417,247) and as at December 31, 2016 had a working capital deficit of \$1,150,458 (December 31, 2015: \$1,626,788).

The Company's ability to continue operations in the normal course of business is dependent on several factors, including its ability to secure additional funding. Management is exploring all available options to secure additional funding, including equity financing and strategic partnerships. In addition, the recoverability of the amount shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain financing to continue to perform exploration activity or complete the development of the properties where necessary, or alternatively, upon the Company's ability to recover its incurred costs through a disposition of its interests, all of which are uncertain.

In the event the Company is unable to identify recoverable resources, receive the necessary permitting, or arrange appropriate financing, the carrying value of the Company's assets and liabilities could be subject to material adjustment. Furthermore, certain market conditions may also cast significant doubt upon the validity of the going concern assumption.

These consolidated financial statements do not include any additional adjustments to the recoverability and classification of certain recorded asset amounts, classification of certain liabilities and changes to the statements of comprehensive loss that might be necessary if the Company was unable to continue as a going concern.

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

c) Basis of measurement

These consolidated financial statements have been prepared on the historical cost basis, except for certain financial assets and liabilities which are presented at fair value.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently by all group entities and to all periods presented in these consolidated financial statements, unless otherwise indicated.

a) Basis of Consolidation

i. Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. This control is generally evidenced through owning more than 50% of the voting rights or currently exercisable potential voting rights of a company's share capital. The financial statements of subsidiaries are included in the consolidated financial statements of the Company from the date that control commences until the date that control ceases. Consolidation accounting is applied for all of the Company's wholly-owned subsidiaries (see note 4).

ii. Transactions eliminated on consolidation

Inter-company balances, transactions, and any unrealized income and expenses, are eliminated in preparing the consolidated financial statements.

Unrealized gains arising from transactions with associates are eliminated against the investment to the extent of the Company's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

b) Use of Estimates and Judgments

The preparation of these consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Information about critical judgments in applying accounting policies and estimates that have the most significant effect on the amounts recognized in these consolidated financial statements is included in the following notes:

Estimates:

i. Impairment

Assets, including property, plant and equipment, and exploration and evaluation assets, are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amounts exceed their recoverable amounts. If an impairment assessment is required, the assessment of fair value often requires estimates and assumptions such as discount rates, exchange rates, commodity prices, rehabilitation and restoration costs, future capital requirements and future operating performance. Changes in such estimates could impact recoverable values of these assets. Estimates are reviewed regularly by management.

ii. Share-based payment transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the stock option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 13.

For warrant-based derivative financial instruments, the Company uses the Black-Scholes option pricing model to estimate fair value of the derivative instruments. The assumptions and models used for estimating fair value of warrant-based derivative financial instruments are disclosed in Note 12.

Judgments:

i. Provisions and contingencies

The amount recognized as provision, including legal, contractual, constructive and other exposures or obligations, is the best estimate of the consideration required to settle the related liability, including any related interest charges, taking into account the risks and uncertainties surrounding the obligation. In addition, contingencies will only be resolved when one or more future events occur or fail to occur. Therefore assessment of contingencies inherently involves the exercise of significant judgment and estimates of the outcome of future events. The Company assesses its liabilities and contingencies based upon the best information available, relevant tax laws and other appropriate requirements.

ii. Title to mineral property interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

iii. Exploration and evaluation expenditure

The application of the Company's accounting policy for exploration and evaluation expenditure requires significant judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. There are key circumstances that would indicate a test for impairment is required, which include: the expiry of the right to explore, substantive expenditure on further exploration is not planned, exploration for and evaluation of the mineral resources in the area have not led to discovery of commercially viable quantities, and/or sufficient data exists to show that the carrying amount of the asset is unlikely to be recovered in full from successful development or by sale. If information becomes available suggesting impairment, the amount capitalized is written off in the consolidated statement of comprehensive loss during the year the new information becomes available.

Significant judgements have been made with regards to the potential for indicators of impairment. This includes judgements related to the ability to carry out the desired exploration activities as a result of various permits currently being under force majeure due to the poor security situation at the North Kivu property and the need to allocate resources amongst different projects based on the availability of capital and funding.

iv. Functional and presentation currency

Judgment is required to determine the functional currency of the Company and its subsidiaries. These judgments are continuously evaluated and are based on management's experience and knowledge of the relevant facts and circumstances.

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

c) Foreign Currency Translation

i. Functional and presentation currency

These consolidated financial statements are presented in United States dollars (“\$”), which is the Company’s functional and presentation currency. References to Cdn\$ represent Canadian dollars.

ii. Foreign currency transactions

The functional currency for each of the Company’s subsidiaries and any associates is the currency of the primary economic environment in which the entity operates. Transactions entered into by the Company’s subsidiaries and any associates in a currency other than the currency of the primary economic environment in which they operate (their “functional currency”) are recorded at the rates ruling when the transactions occur except depreciation and amortization which are translated at the rates of exchange applicable to the related assets, with any gains or losses recognized in the consolidated statements of comprehensive loss. Foreign currency monetary assets and liabilities are translated at current rates of exchange with the resulting gain or losses recognized in the statements of comprehensive loss. Non-monetary assets and liabilities are translated using the historical exchange rates. Non-monetary assets and liabilities measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

d) Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held on call with financial institutions, and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts.

e) Financial Assets

A financial asset is classified as either financial assets at fair value through profit or loss (“FVTPL”), loans and receivables, held to maturity investments (“HTM”), or available for sale financial assets (“AFS”), as appropriate at initial recognition and, except in very limited circumstances, the classification is not changed subsequently. The classification is determined at initial recognition and depends on the nature and purpose of the financial asset. The Company does not have any financial assets that are classified as HTM and AFS. A financial asset is derecognized when contractual rights to the asset’s cash flows expire or if substantially all the risks and rewards of the asset are transferred.

Financial assets at FVTPL

A financial asset is classified as FVTPL when the financial asset is held for trading or it is designated upon initial recognition as an FVTPL. A financial asset is classified as held for trading if (1) it has been acquired principally for the purpose of selling or repurchasing in the near term; (2) it is part of an identified portfolio of financial instruments that the Company manages and has an actual pattern of short term profit taking; or (3) it is a derivative that is not designated and effective as a hedging instrument. Financial assets at FVTPL are carried in the consolidated statements of financial position at fair value with changes in fair value recognized in profit or loss. Transaction costs are expensed as incurred. The Company has classified cash and cash equivalents as FVTPL.

Loans and receivables

Loans and receivables are initially recognized at fair value plus transaction costs that are directly attributable to their acquisition or issue, and are subsequently carried at amortized cost less losses for impairment. The impairment loss of receivables is based on a review of all outstanding amounts at period end. Bad debts are written off during the period in which they are identified. Amortized cost is calculated taking into account any discount or premium on

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

acquisition and includes fees that are an integral part of the effective interest rate and transaction costs. Gains and losses are recognized in the statements of comprehensive loss when the loans and receivables are derecognized or impaired, as well as through the amortization process. The Company has classified advances receivable and balances due from related parties as loans and receivables.

Impairment of financial assets

The Company assesses at each reporting date whether a financial asset or a group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired, if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

f) Financial Liabilities

Financial liabilities are classified as FVTPL, or other financial liabilities, as appropriate upon initial recognition. The common share purchase warrants are a liability classified as FVTPL. The common share purchase warrants are re-valued at year and period end, with a gain or loss reported on the consolidated statement of comprehensive loss. A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expired.

Financial liabilities classified as other financial liabilities are initially recognized at fair value less directly attributable transaction costs. Subsequent to the initial recognition, other financial liabilities are measured at amortized cost using the effective interest method. The Company's other financial liabilities include accounts payable, accrued liabilities, due to related parties, and employee retention allowance.

g) Earnings (loss) Per Share

Basic earnings (loss) per share is computed by dividing the net income (loss) applicable by the weighted average number of common shares outstanding during the reporting period. Diluted earnings (loss) per share is computed by dividing the net income (loss) by the sum of the weighted average number of common shares issued and outstanding during the reporting period and all additional common shares for the assumed exercise of options and warrants outstanding for the reporting period, if dilutive. When the Company is incurring losses, basic and diluted loss per share are the same since including the exercise of outstanding options and share purchase warrants in the diluted loss per share calculation would be anti-dilutive.

h) Property, Plant and Equipment ("PPE")

i. Recognition and measurement

Items of PPE are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials, directed labor and any other cost directly attributable to bring the asset to the location and condition necessary to be capable of operating in the manner intended by the Company.

ii. Subsequent costs

The cost of replacing part of an item of PPE is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized and included in net loss. If the carrying amount of the replaced component is not known, it is estimated based on the cost of the new component less estimated depreciation. The costs of the day-to-day servicing of property, plant and equipment are recognized in the statement of comprehensive loss.

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

(i.e., the higher of fair value less cost to sell and value in use). Fair value less cost to sell is the amount obtainable from the sale of an asset or CGU in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal. Value in use is determined as the present value of the future cash flows expected to be derived from an asset or CGU. Estimated future cash flows are calculated using estimated future prices, any mineral reserves and resources, operating and capital costs. All assumptions used are those that an independent market participant would consider appropriate. The estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which estimates of future cash flows have not been adjusted. During the year ended December 31, 2016, the Company recognized impairment of exploration and evaluation assets for \$nil (December 31, 2015 - \$2,300,000) to adjust the carrying value of the assets to their fair value, using a level 3 value in use methodology.

k) Income Taxes

Income tax expense consists of current and deferred tax expense. Income tax expense is recognized in the statement of comprehensive (loss) income, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity.

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute current income tax assets and liabilities are measured at future anticipated tax rates, which have been enacted or substantively enacted at the reporting date. Current tax assets and current tax liabilities are only offset if a legally enforceable right exists to set off the amounts, and the Company intends to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred taxation is provided on all qualifying temporary differences at the reporting date between the tax basis of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets are only recognized to the extent that it is probable that the deductible temporary differences will reverse in the foreseeable future and future taxable profit will be available against which the temporary difference can be utilized.

Deferred tax liabilities and assets are not recognized for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

l) Share-Based Payments

Equity-settled share-based payments for directors, officers and employees are measured at fair value at the date of grant and recorded as compensation expense in the consolidated financial statements. The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period based on the Company's estimate of options that will eventually vest. The number of forfeitures likely to occur is estimated on grant date and is revised as deemed necessary.

Compensation expense on stock options granted to consultants is measured at the earlier of the completion of performance and the date the options are vested using the fair value method and is recorded as an expense in the same period as if the Company had paid cash for the goods or services received.

When the value of goods or services received in exchange for the share-based payment cannot be reliably estimated, the fair value is measured by use of a Black-Scholes valuation model. The expected life used in the model is

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

Any consideration paid by directors, officers, employees and consultants on exercise of equity-settled share-based payments is credited to share capital. Shares are issued from treasury upon the exercise of equity-settled share-based instruments.

m) Provisions and Contingencies

Provisions are recognized when a legal or constructive obligation exists, as a result of past events, and it is probable that an outflow of resources that can be reliably estimated will be required to settle the obligation. Where the effect is material, the provision is discounted using an appropriate current market-based pre-tax discount rate. The increase in the provision due to passage of time is recognized as interest expense.

When a contingency substantiated by confirming events, can be reliably measured and is likely to result in an economic outflow, a liability is recognized as the best estimate required to settle the obligation. A contingent liability is disclosed where the existence of an obligation will only be confirmed by future events, or where the amount of a present obligation cannot be measured reliably or will likely not result in an economic outflow. Contingent assets are only disclosed when the inflow of economic benefits is probable. When the economic benefit becomes virtually certain, the asset is no longer contingent and is recognized in the consolidated financial statements.

n) Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. Related party transactions are in the normal course of business and have commercial substance.

o) Newly Applied Accounting Standards

The following amended standard was adopted as of January 1, 2016:

- IAS 1, "Presentation of Financial Statements" (amendment).

The adoption of this amended standard did not have a significant impact on the Company's consolidated financial statements.

p) Accounting Standards Issued But Not Yet Effective

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective and determined that the following may have an impact on the Company:

IFRS 9, Financial instruments ("IFRS 9") was issued by the IASB on July 24, 2014 and will replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 is intended to reduce the complexity for the classification, measurement, and impairment of financial instruments. The mandatory effective date is for annual periods beginning on or after January 1, 2018. The Company is evaluating the impact of this standard on its consolidated financial statements.

IAS 7 - Statement of Cash Flows ("IAS 7") was amended in February 2016 with the objective that entities provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities. The amendments are effective for annual periods beginning on or after January 1, 2017. Earlier adoption is permitted. The Company is evaluating the impact of this standard on its consolidated financial statements.

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

IFRS 16, Leases (“IFRS 16”) was issued by the IASB in January 2016 and will replace IAS 17 Leases. IFRS 16 specifies the methodology to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. The mandatory effective date is for annual periods beginning on or after January 1, 2019. The Company is evaluating the impact of this standard on its consolidated financial statements.

4. SUBSIDIARIES

The following table lists the Company’s subsidiaries:

Name of Subsidiary	Place of Incorporation	Proportion of Ownership Interest	Principal Activity
Loncor Resources Congo SARL	Democratic Republic of the Congo	100%	Mineral Exploration
Nevada Bob's Franchising, Inc.	Delaware, USA	100%	Dormant

5. ADVANCES RECEIVABLE

	December 31, 2016	December 31, 2015
Advances receivable	\$ 98,352	\$ 42,000

The balance of \$98,352 pertains to advances to employees and suppliers (December 31, 2015 - \$42,000).

6. RELATED PARTY TRANSACTIONS

Balances and transactions between the Company and its subsidiaries, which are related parties of the Company, have been eliminated on consolidation, and are not disclosed in this note.

a) Key Management Remuneration

Key management includes directors (executive and non-executive), the Chief Executive Officer (“CEO”), the Chief Financial Officer, and the senior executives reporting directly to the CEO. The remuneration of the key management of the Company as defined above, during the years ended December 31, 2016, December 31, 2015 and December 31, 2014 were as follows:

	For the year ended		
	December 31, 2016	December 31, 2015	December 31, 2014
Salaries	\$ 137,458	\$ 145,067	\$ 168,000
Employee retention allowance	\$ 11,455	\$ 9,090	\$ 14,000
Compensation expense-share-based payments	\$ 55,176	\$ -	\$ 59,060
	<u>\$ 204,088</u>	<u>\$ 154,157</u>	<u>\$ 241,060</u>

Loncor Resources Inc.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****As at and for the years ended December 31, 2016 and 2015****(Expressed in U.S. dollars, except for per share amounts)**

b) Other Related Parties

As at December 31, 2016, an amount of \$1,381 was due to Delrand Resources Limited (“Delrand”), a company with common directors, incurred in connection with common expenses (December 31, 2015 - \$12,619 due from Delrand).

As at December 31, 2016, an amount of \$77,443 relating to advances provided to the Company was due to Arnold Kondrat, a director and officer of the Company (December 31, 2015 - \$527,826).

As at December 31, 2016, an amount of \$49,085 was due to Gentor Resources Inc. (a company with common directors) related to common expenses (December 31, 2015 - \$62,236).

	December 31, 2016	December 31, 2015
Due from related party	\$ -	\$ 12,619
Due to related parties	127,909	590,062

The amounts included in due from/to related party are non-interest bearing and are payable within 12 months.

7. PROPERTY, PLANT AND EQUIPMENT

The Company’s property, plant and equipment are summarized as follows:

	Furniture & fixtures	Office & Communication equipment	Vehicles	Field camps and equipment	Leasehold improvements	Total
	\$	\$	\$	\$	\$	\$
Cost

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

During the year ended December 31, 2016, depreciation in the amount of \$42,819 (year ended December 31, 2015 - \$82,272) was capitalized to exploration and evaluation assets.

8. EXPLORATION AND EVALUATION ASSETS

	North Kivu	Ngayu	Total
Cost			
Balance as at January 1, 2015	9,924,001	19,516,926	29,440,927
Additions	22,481	522,822	545,303
Impairment loss	-	(2,300,000)	(2,300,000)
Balance as at December 31, 2015	\$ 9,946,482	\$ 17,739,748	\$ 27,686,230
Additions	8,933	658,620	667,553
Earn-in Randgold payment	-	(646,014)	(646,014)
Balance as at December 31, 2016	\$ 9,955,415	\$ 17,752,354	\$ 27,707,769

There is \$150,000 of intangible exploration and evaluation expenditures as at December 31, 2016. The intangibles have not been included in the table above. There have not been any additions or disposals of intangible assets since January 1, 2014.

a. North Kivu

The North Kivu project is situated in the North Kivu Province in eastern Congo to the northwest of Lake Edward and consists of 47 exploration permits covering approximately 13,000 square kilometres. All of these exploration permits are currently under force majeure due to the poor security situation, affecting the Company's recent ability to carry out the desired exploration activities. The duration of the event of force majeure is added to the time limit for execution of obligations under the permits. Historical data has been compiled from the colonial period and outlined ten gold prospects for follow-up, the most prospective being the Manguredjipa prospect where 300,000 ounces of alluvial gold was mined during the colonial period. Other gold prospects warranting follow up include Lutunguru, Lubero, Makwasu, Lutela, Bilolo, Manzia, Mohanga and Ludjulu. Exploration estimates to date have not advanced to the stage of being able to identify the quantity of possible resources available for potential mining. Under force majeure, the Company has no tax payment obligations and does not lose tenure of mining titles until force majeure is lifted.

b. Ngayu

The Ngayu project consists of 13 exploration permits and is found within the Orientale Province in the northeast of the Congo, approximately 270 kilometers northeast of Kisangani. The Ngayu project covers part of the Ngayu Archaean greenstone belt which is one of a number of greenstone belts in the north-east Congo Archaean craton that includes the Kilo and Moto greenstone belts. These Archaean greenstone belts are the northwestern extensions of the Lake Victoria greenstone belt terrain that hosts a number of world class gold deposits including Geita and Bulyanhulu.

In 2015, due to a decrease in gold prices coupled with the reduction of the exploration budget, the Company conducted an impairment analysis whereby the carrying value of the Ngayu exploration and evaluation asset as at December 31, 2015 was assessed for possible impairment. The asset's recoverable amount was calculated applying a fair value of \$15 per ounce of gold in the ground, which was provided by a valuation analysis of an independent report on similar African exploration companies, to the Ngayu project's Makapela estimated mineral resource. Since the carrying value of the asset was determined to be higher than its recoverable amount, an impairment loss of \$2,300,000 was recorded during the year ended December 31, 2015. As at December 31, 2016, the Company conducted an analysis of various factors as per IFRS 6.20 and determined that there were no impairment indicators as at December 31, 2016 and thus an impairment test for exploration and evaluation assets was not considered necessary.

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

Randgold Agreement

In January 2016, the Company's Congo subsidiary ("Loncor Congo") entered into an agreement with Randgold Resources (DRC) Limited ("Randgold") with respect to the Company's Ngayu project. This agreement provides for the potential future establishment of a joint venture special purpose company ("Mining Company") between Loncor Congo and Randgold. The Mining Company will be established only if exploration activities undertaken by Randgold at the Ngayu project result in an approved completed pre-feasibility study on any gold discovery meeting the investment criteria of Randgold. The agreement does not include certain parcels of land surrounding and including the Makapela and Yindi prospects which are retained by Loncor Congo and do not form part of the agreement.

Loncor Congo shall only be called upon to contribute to the future costs of the Mining Company after the approval of the completed pre-feasibility study. The parties will then (a) contribute to the funding required pro rata to their participating interests (65% for Randgold and 35% for Loncor, less the free carried interest attributable to Congo authorities under applicable law, determined at the time of establishment) once the Mining Company has been established and any mining rights with respect to the area of discovery are transferred to the Mining Company, or (b) be diluted. The decision-making committee of the Mining Company will determine whether the funding is contributed (for the purpose of funding the Mining Company) by way of equity or shareholder loans.

9. INTANGIBLE ASSETS

The Company's intangible assets include licenses and rights. Based on management's assessment, these intangible assets have been valued at \$1 as their fair value is nominal.

10. SEGMENTED REPORTING

The Company has one operating segment: the acquisition, exploration and development of precious metal projects located in the Congo. The operations of the Company are located in two geographic locations, Canada and the Congo. Geographic segmentation of non-current assets is as follows:

December 31, 2016

	Property, plant and equipment	Intangible assets	Exploration and evaluation
Congo	\$18,486	-	\$27,857,769
Canada	\$16,916	\$1	-
	<u>\$35,403</u>	<u>\$1</u>	<u>\$27,857,769</u>

December 31, 2015

	Property, plant and equipment	Intangible assets	Exploration and evaluation
Congo	\$61,306	-	\$27,836,230
Canada	\$20,769	\$1	-
	<u>\$82,075</u>	<u>\$1</u>	<u>\$27,836,230</u>

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars, except for per share amounts)

11. ACCOUNTS PAYABLE

The following table summarizes the Company's accounts payable:

	December 31, 2016	December 31, 2015
Exploration and evaluation expenditures	\$ 228,839	\$ 253,837
Non-exploration and evaluation expenditures	\$ 174,774	\$ 148,139
Total Accounts Payable	\$ 403,613	\$ 401,976

12. SHARE CAPITAL

a) Authorized

The authorized share capital of the Company consists of unlimited number of common shares and unlimited number of preference shares, issuable in series, with no par value. All shares issued are fully paid.

The holders of common shares are entitled to receive notice of and to attend all meetings of the shareholders of the Company and shall have one vote for each common share held at all meetings of shareholders of the Company, except for meetings at which only holders of another specified class or series of shares are entitled to vote separately as a class or series. Subject to the prior rights of the holders of the preference shares or any other share ranking senior to the common shares, the holders of the common shares are entitled to (a) receive any dividend as and when declared by the board of directors, out of the assets of the Company properly applicable to payment of dividends, in such amount and in such form as the board of directors may from time to time determine, and (b) receive the remaining property of the Company in the event of any liquidation, dissolution or winding up of the Company.

The Company may issue preference shares at any time and from time to time in one or more series with designations, rights, privileges, restrictions and conditions fixed by the board of directors. The preference shares of each series are ranked on parity with the preference shares of every series and are entitled to priority over the common shares and any other shares of the Company ranking junior to the preference shares, with respect to priority in payment of dividends and the return of capital and the distribution of assets of the Company in the event of liquidation, dissolution or winding up of the Company.

b) Issued share capital

In February 2015, the Company closed a non-brokered private placement of 8,000,000 common shares of the Company at a price of Cdn\$0.06 per share for proceeds to the Company of Cdn\$480,000. In March 2015, the Company closed a non-brokered private placement of 3,000,000 common shares of the Company at a price of Cdn\$0.06 per share for proceeds to the Company of Cdn\$180,000. Arnold T. Kondrat, President, Chief Executive Officer and a director of the Company, purchased 3,500,000 of the shares issued under the February 2015 private placement and 500,000 of the shares under the March 2015 private placement.

In February 2016, the Company closed a non-brokered private placement of 67,000,000 common shares of the Company at a price of Cdn\$0.015 per share for gross proceeds of Cdn\$1,005,000 (the "Offering"). Arnold T. Kondrat, President, Chief Executive Officer and a director of the Company, acquired 60,000,000 of the shares issued under the Offering. Mr. Kondrat now holds 74,300,818 (or 48.5%) of the outstanding common shares of the Company. A portion of the proceeds of the Offering were used to repay short term, non-interest bearing loans totalling Cdn\$825,000 provided to the Company by Mr. Kondrat.

In June 2016, the Company closed a non-brokered private placement of 1,750,000 units of the Company at a price of Cdn\$0.12 per unit for gross proceeds of Cdn\$210,000. Each such unit was comprised of one common share of the Company and one-half of one warrant of the Company, with each full warrant entitling the holder to purchase one common share of the Company at a price of Cdn\$0.18 for a period of two years.

As of December 31, 2016, the Company had issued and outstanding 153,189,732 common shares (December 31, 2015 - 84,439,732) and no preference shares are issued and outstanding.

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

c) Common share purchase warrants

As at December 31, 2016, the Company had outstanding 875,000 (December 31, 2015 - nil) common share purchase warrants. No warrants were forfeited or cancelled during the year ended December 31, 2016 (year ended December 31, 2015 - nil). The common share purchase warrants are classified as a liability because they are a derivative financial instrument due to their exercise price differing from the functional currency of the Company. The common share purchase warrants are re-valued at year and period end, with a gain or loss reported on the consolidated statement of comprehensive loss. As at December 31, 2016, the Company recognized in the consolidated statement of comprehensive loss a loss of \$6,452 representing the change in fair value on this derivative financial instrument. The following table summarizes the Company's common share purchase warrants outstanding as at December 31, 2016:

Date of Grant	Opening Balance	Granted during period	Exercised	Expired	Closing Balance	Exercise Price	Exercise period (months)	Expiry Date	Remaining contractual life (months)
29/06/2016	-	875,000	-	-	875,000	\$ 0.18	24	29/06/2018	18

The value of the warrants was calculated using the Black-Scholes model and the assumptions at grant date and year end date were as follows:

	December 31, 2016	June 29, 2016
Risk free interest rate	0.74%	0.48%
Expected life	1.5 years	2 years
Annualized volatility	179.86%	179.41%
Dividend yield	0.00%	0.00%
Fair value (Cdn\$)	\$ 0.13	\$ 0.14

d) Loss per share

Loss per share was calculated on the basis of the weighted average number of common shares outstanding for the year ended December 31, 2016 amounting to 142,123,979 (year ended December 31, 2015 - 82,572,774) common shares. The diluted weighted average number of common shares outstanding for the year ended December 31, 2016 amounted to 142,123,979 (year ended December 31, 2015 - 82,572,774) common shares. As at December 31, 2016, fully diluted earnings per share calculated by adding 3,215,000 (December 31, 2015 - 1,395,000) common shares related to stock options and 875,000 common share purchase warrants were the same as the basic earnings per share because they were anti-dilutive.

13. SHARE-BASED PAYMENTS

The Company has an incentive Stock Option Plan under which non-transferable options to purchase common shares of the Company may be granted to directors, officers, employees or consultants of the Company or any of its subsidiaries. No amounts are paid or payable by the recipient on receipt of the option, and the exercise of the options granted is not dependent on any performance-based criteria. In accordance with these programs, options are exercisable at a price not less than the last closing price of the shares at the grant date.

Under this Stock Option Plan, 25% of options granted vest on each of the 6 month, 12 month, 18 month and 24 month anniversaries of the grant date.

The following tables summarize information about stock options:

For the year ended December 31, 2016:

There were 2,400,000 options granted during the year ended December 31, 2016. The weighted average fair value of stock options as at December 31, 2016 was estimated at Cdn\$0.11 per stock option (year ended December 31, 2015 - Cdn\$0.94).

The model inputs for options granted during the year ended December 31, 2016 included the following (no options were granted during the year ended December 31, 2015):

Twelve month period ended	31-Dec-16
Risk free interest rate	0.54%
Expected life	3.00
Annualized volatility	128.69%
Dividend yield	0%
Forfeiture rate	2%
Grant date fair value (Cdn\$)	\$0.06

The expected price volatility is based on the historic volatility (based on the remaining life of the options), adjusted for any expected changes to future volatility due to publicly available information. The fair value at grant date is determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

During the year ended December 31, 2016, the Company recognized in the statement of comprehensive loss as an expense \$55,176 (year ended December 31, 2015 - \$nil) representing the vesting of the fair value at the date of grant of stock options previously granted to employees, directors and officers under the Company's Stock Option Plan.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

14. COMMITMENTS

Lease Commitments

The Company has no future operating lease commitments as at December 31, 2016.

15. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

a) Fair value of financial assets and liabilities

The consolidated statements of financial position carrying amounts for cash and cash equivalents, advances receivable, balances due from and due to related parties, accounts payable, accrued liabilities and the employee retention allowance approximate fair value due to their short-term nature.

Fair value hierarchy

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between Level 1, 2 and 3 during the reporting period. Cash and cash equivalents are ranked Level 1 as the market value is readily observable. The carrying value of cash and cash equivalents approximates fair value, as maturities are less than three months.

The fair value of warrants (note 12c) would be included in the hierarchy as follows:

31-Dec-16			
Liabilities:	Level 1	Level 2	Level 3
Canadian dollar common share purchase warrants	-	\$85,633	-

31-Dec-15			
Liabilities:	Level 1	Level 2	Level 3
Canadian dollar common share purchase warrants	-	\$0	-

b) Risk Management Policies

The Company is sensitive to changes in commodity prices and foreign-exchange. The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. Although the

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

Company has the ability to address its price-related exposures through the use of options, futures and forward contracts, it does not generally enter into such arrangements.

c) Foreign Currency Risk

Foreign currency risk is the risk that a variation in exchange rates between the United States dollar and Canadian dollar or other foreign currencies will affect the Company's operations and financial results. A portion of the Company's transactions are denominated in Canadian dollars. The Company is also exposed to the impact of currency fluctuations on its monetary assets and liabilities. Significant foreign exchange gains or losses are reflected as a separate item in the consolidated statement of comprehensive loss. The Company does not use derivative instruments to reduce its exposure to foreign currency risk.

The following table indicates the impact of foreign currency exchange risk on net working capital as at December 31, 2016. The table below also provides a sensitivity analysis of a 10 percent strengthening of the US dollar against the Canadian dollar which would have increased (decreased) the Company's net loss by the amounts shown in the table below. A 10 percent weakening of the US dollar against the Canadian dollar would have had the equal but opposite effect as at December 31, 2016.

	December 31, 2016
	Canadian dollar
Cash and cash equivalents	2,094
Accounts payable and accrued liabilities	(509,175)
Employee retention allowance	(247,450)
Total foreign currency financial assets and liabilities	(754,530)
Foreign exchange rate at December 31, 2016	0.7448
Total foreign currency financial assets and liabilities in US \$	(561,974)
Impact of a 10% strengthening of the US \$ on net loss	(56,197)

d) Credit Risk

Financial instruments which are potentially subject to credit risk for the Company consist primarily of cash and cash equivalents, advances receivable, and due from related parties. Cash and cash equivalents are maintained with several financial institutions of reputable credit and may be redeemed upon demand. It is therefore the Company's opinion that such credit risk is subject to normal industry risks and is considered minimal.

The Company limits its exposure to credit risk on any investments by investing only in securities rated R1 (the highest rating) by credit rating agencies such as the DBRS (Dominion Bond Rating Service). Management continuously monitors the fair value of any investments to determine potential credit exposures. Short-term excess cash is invested in R1 rated investments including money market funds and other highly rated short-term investment instruments. Any credit risk exposure on cash balances is considered negligible as the Company places deposits only with major established banks in the countries in which it carries on operations.

The carrying amount of financial assets represents the maximum credit exposure. The Company's gross credit exposure at December 31, 2016 and December 31, 2015 was as follows:

	December 31,	December 31,
	2016	2015
Cash and cash equivalents	\$21,520	\$8,255
Advances receivable	\$98,352	\$42,000
Due from related parties	\$0	\$12,619
	\$119,872	\$62,874

(Expressed in U.S. dollars, except for per share amounts)

e) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company attempts to ensure that there is sufficient cash to meet its liabilities when they are due and manages this risk by regularly evaluating its liquid financial resources to fund current and long-term obligations and to meet its capital commitments in a cost-effective manner. Temporary surplus funds of the Company are invested in short-term investments. The Company arranges the portfolio so that securities mature approximately when funds are needed. The key to success in managing liquidity is the degree of certainty in the cash flow projections. If future cash flows are fairly uncertain, the liquidity risk increases. The Company's liquidity requirements are met through a variety of sources, including cash and cash equivalents and equity capital markets. All financial obligations of the Company including accounts payable of \$403,613, accrued liabilities of \$209,930, due to related parties of \$127,909, and employee retention allowance of \$596,849 are due within one year.

f) Mineral Property Risk

The Company's operations in the Congo are exposed to various levels of political risk and uncertainties, including political and economic instability, government regulations relating to exploration and mining, military repression and civil disorder, all or any of which may have a material adverse impact on the Company's activities or may result in impairment in or loss of part or all of the Company's assets.

g) Capital Management

The Company manages its common shares, warrants and stock options as capital. The Company's policy is to maintain a sufficient capital base in order to meet its short term obligations and at the same time preserve investors' confidence required to sustain future development of the business.

	December 31, 2016	December 31, 2015
Share capital	\$ 77,048,991	\$ 76,240,994
Reserves	\$ 8,197,193	\$ 8,142,017
Deficit	\$ (58,589,102)	\$ (58,091,493)
Common share purchase warrants	\$ 85,633	\$ -
	<u>\$ 26,742,715</u>	<u>\$ 26,291,518</u>

16. SUPPLEMENTAL CASH FLOW INFORMATION

During the periods indicated the Company undertook the following significant non-cash transactions:

		For the year ended		
	Note	December 31, 2016	December 31, 2015	December 31, 2014
Depreciation included in exploration and evaluation assets	8	\$ 42,819	\$ 82,272	\$ 178,350
Stock-based compensation included in exploration and evaluation assets		\$ -	\$ -	\$ 35,943
Employee retention allowance included in exploration and evaluation assets	17	\$ 9,800	\$ 9,800	\$ 9,800

17. EMPLOYEE RETENTION ALLOWANCE

The Company has an incentive employee retention plan under which an amount equal to one month salary per year of service is accrued to each qualified employee up to a maximum of 10 months (or 10 years of service with the Company and/or a

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As at and for the years ended December 31, 2016 and 2015

(Expressed in U.S. dollars, except for per share amounts)

related company). To qualify for this retention allowance, an employee must complete two years of service with the Company and/or a related company. The full amount of retention allowance accumulated by a particular employee is paid out when the employee is no longer employed with the Company, unless there is a termination due to misconduct, in which case the retention allowance is forfeited. There is uncertainty about the timing of these outflows but with the information available and assumption that eligible employees will not be terminated due to misconduct, as at December 31, 2016, the Company had accrued a total liability of \$596,849 (December 31, 2015 - \$570,487).

The following table summarizes information about changes to the Company's employee retention allowance during the year ended December 31, 2016.

	\$
Balance at December 31, 2014	602,478
Additions	18,890
Foreign exchange gain	(29,963)
Paid to employees	(20,918)
Balance at December 31, 2015	<u>570,487</u>
Additions	21,255
Foreign exchange gain	5,107
Balance at December 31, 2016	<u>596,849</u>

Of the \$21,255 accrued during the year ended December 31, 2016, \$9,800 (December 31 2015 - \$9,800) was capitalized to exploration and evaluation expenditures.

18. INCOME TAXES

The following table reconciles the income taxes calculated at statutory rates with the income tax expense in the statement of comprehensive loss:

	Years Ended December 31,		
	2016	2015	2014
	\$	\$	\$
Net loss for the year	(497,610)	(2,417,247)	(2,902,710)
Combined federal and provincial income tax rates	26.50%	26.50%	26.50%
Income tax recovery at Canadian federal and provincial statutory rates	(131,867)	(640,570)	(769,218)
Permanent differences	13,679	(49,263)	19,861
Difference between Canadian rates and rates applicable to subsidiary in the Foreign Jurisdictions	-	(80,501)	(76,599)
Change in tax rate	-	-	-
Foreign exchange differences	(91,671)	575,147	321,151
Expired losses	-	-	-
Other	7,219	1,887	3,131
Change in unrecognized deferred tax asset	202,640	193,300	501,674
Income tax expense	-	-	-

The Company has temporary differences of \$11,845,583 (December 31, 2015 - \$11, 642,943 and December 31, 2014 - \$ 11,449,643) for which no deferred tax asset is recognized.

The nature and tax effect of the temporary differences giving rise to the deferred income tax assets and liabilities at December 31, 2016, 2015 and 2014 are summarized as follows:

Loncor Resources Inc.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****As at and for the years ended December 31, 2016 and 2015****(Expressed in U.S. dollars, except for per share amounts)**

	Years Ended December 31,
