NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the three and six month periods ended June 30, 2016

(Expressed in U.S. dollars, except for per share amounts - unaudited)

1. CORPORATE INFORMATION

Loncor Resources Inc. (the "Company") is a corporation governed by the Ontario *Business Corporations Act*. The principal business of the Company is the acquisition and exploration of mineral properties.

These interim condensed consolidated financial statements as at and for the three and six months ended June 30, 2016 include the accounts of the Company and of its wholly owned subsidiaries in the Democratic Republic of the Congo (the "Congo"), Loncor Resources Congo SARL, and in the U.S., Nevada Bob's Franchising, Inc., respectively.

The Company is a publicly traded company whose outstanding common shares are listed for trading on the Toronto Stock Exchange. The head office of the Company is located at 1 First Canadian Place, 100 King St. West, Suite 7070, Toronto, Ontario, M5X 1E3, Canada.

2. BASIS OF PREPARATION

a) Statement of compliance

These interim condensed consolidated financial statements as at and for the three and six month periods ended June 30, 2016 have been prepared in accordance with International Accounting Standard ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The disclosure contained in these interim condensed consolidated financial statements does not include all the requirements in IAS 1 Presentation of Financial Statements ("IAS 1"). Accordingly, these interim condensed consolidated financial statements should be read in conjunction with the Company's consolidated financial statements as at and for the year ended December 31, 2015, which include information necessary to understand the Company's business and financial statement presentation.

b) Continuation of Business

These interim condensed consolidated financial statements have been prepared on a going concern basis, under the historical cost convention, except for certain financial assets which are presented at fair value.

The Company incurred a net loss of \$353,452 for the six months ended June 30, 2016 (six months ended June 30, 2015 - \$158,840) and as at June 30, 2016 had a working capital deficit of \$982,643 (December 31, 2015: \$1,626,788).

The Company's ability to continue operations in the normal course of business is dependent on several factors, including its ability to secure additional funding. Management is exploring all available options to secure additional funding, including equity financing and strategic partnerships. In addition, the recoverability of the amount shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain financing to continue to perform exploration activity or complete the development of the properties where necessary, or alternatively, upon the Company's ability to recover its incurred costs through a disposition of its interests, all of which are uncertain.

In the event the Company is unable to identify recoverable resources, receive the necessary permitting, or arrange appropriate financing, the carrying value of the Company's assets and liabilities could be subject to material adjustment. Furthermore, certain market conditions may cast significant doubt upon the validity of the going concern assumption.

These interim condensed consolidated financial statements do not include any additional adjustments to the recoverability and classification of certain recorded asset amounts, classification of certain liabilities and changes to the statements of comprehensive loss that might be necessary if the Company was unable to continue as a going concern.

Loncor Resources Inc.

c) Basis of measurement

These interim condensed consolidated financial statements have been prepared on the historical cost basis, except for certain financial assets which are presented at fair value.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently by all group entities and to all periods presented in these interim condensed consolidated financial statements, unless otherwise indicated.

a) Basis of Consolidation

i. Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. This control is generally evidenced through owning more than 50% of the voting rights or currently exercisable potential voting rights of a company's share capital. The financial statements of subsidiaries are included in the consolidated financial statements of the Company from the date that control commences until the date that control ceases. Consolidation accounting is applied for all of the Company's wholly-owned subsidiaries (see note 4).

ii. Transactions eliminated on consolidation

Inter-company balances, transactions, and any unrealized income and expenses, are eliminated in preparing the consolidated financial statements.

Unrealized gains arising from transactions with associates are eliminated against the investment to the extent of the Company's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

b) Use of Estimates and Judgments

The preparation of these consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

c) Newly Applied Accounting Standard

The following amended standard was adopted as of January 1, 2016:

- IAS 1, "Presentation of Financial Statements" (amendment).

The adoption of this amended standard did not have a significant impact on the Company's consolidated financial statements.

d) Accounting Standards Issued But Not Yet Effective

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective and determined that the following may have an impact on the Company:

IFRS 9, Financial instruments ("IFRS 9") was issued by the IASB on July 24, 2014 and will replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 is intended to reduce the complexity for the classification, measurement, and impairment of financial instruments. The mandatory effective date is for annual periods beginning on or after January 1, 2018. The Company is evaluating the impact of this standard on its consolidated financial statements.

8. EXPLORATION AND EVALUATION ASSETS

The following table summarizes the Company's tangible exploration and evaluation expenditures with respect to its mineral properties in the Congo:

	North Kivu	Ngayu	Total
Cost			
Balance as at January 1, 2015	9,924,001	19,516,926	29,440,927

Balance as at June 30, 2016	\$ 9,951,687	\$ 17,705,792	\$ 27,657,479

There is \$150,000 of intangible exploration and evaluation expenditures as at June 30, 2016. The intangibles have not been included in the table above. There have not been any additions or disposals of intangible assets since January 1, 2014.

a. North Kivu

The North Kivu project is situated in the North Kivu Province in eastern Congo to the northwest of Lake Edward and consists of 49 exploration permits covering 13,375 square kilometres. Historical data has been compiled from the colonial period and outlined ten gold prospects for follow-up, the most prospective being the Manguredjipa prospect where 300,000 ounces of alluvial gold was mined during the colonial period. Other gold prospects warranting follow up include Lutunguru, Lubero, Makwasu, Lutela, Bilolo, Manzia, Mohanga and Ludjulu. Exploration estimates to date have not advanced to the stage of being able to identify the quantity of possible resources available for potential mining.

b. Ngayu

The Ngayu project covers an area of 2,077 square kilometres and is found within the Orientale Province in the northeast of the Congo, approximately 270 kilometers northeast of Kisangani. The Ngayu project covers most of the Ngayu Archaean greenstone belt which is one of a number of greenstone belts in the north-east Congo Archaean craton that includes the Kilo and Moto greenstone belts. These Archaean greenstone belts are the northwestern extensions of the Lake Victoria greenstone belt terrain that hosts a number of world class gold deposits including Geita and Bulyanhulu.

Due to a decrease in gold prices coupled with the reduction of the exploration budget, the Company conducted an impairment analysis whereby the carrying value of the Ngayu exploration and evaluation asset (as at December 31, 2015) was assessed. The asset's recoverable amount was calculated applying a fair value of \$15 per ounce of gold in the ground, which was provided by a valuation analysis of an independent report on similar African exploration companies, to the Ngayu project's Makapela estimated mineral resource. Since the carrying value of the asset was determined to be higher than its recoverable amount, an impairment loss of \$2,300,000 was recorded during the year ended December 31, 2015. As at June 30, 2016, the Company conducted an impairment analysis and concluded that an additional impairment charge or gain was not required.

9. INTANGIBLE ASSETS

The Company's intangible assets include licenses and rights. Based on management's assessment, these intangible assets have been valued at \$1 as their fair value is nominal.

12. SHARE CAPITAL

a) Authorized

The authorized share capital of the Company consists of unlimited number of common shares and unlimited number of preference shares, issuable in series, with no par value. All shares issued are fully paid.

The holders of common shares are entitled to receive notice of and to attend all meetings of the shareholders of the Company and shall have one vote for each common share held at all meetings of shareholders of the Company, except for meetings at which only holders of another specified class or series of shares are entitled to vote separately as a class or series. Subject to the prior rights of the holders of the preference shares or any other share ranking senior to the common shares, the holders of the common shares are entitled to (a) receive any dividend as and when declared by the board of directors, out of the assets of the Company properly applicable to payment of dividends, in such amount and in such form as the board of directors may from time to time determine, and (b) receive the remaining property of the Company in the event of any liquidation, dissolution or winding up of the Company.

The Company may issue preference shares at any time and from time to time in one or more series with designations, rights, privileges, restrictions and conditions fixed by the board of directors. The preference shares of each series are ranked on parity with the preference shares of every series and are entitled to priority over the common shares and any other shares of the Company ranking junior to the preference shares, with respect to priority in payment of dividends and the return of capital and the distribution of assets of the Company in the event of liquidation, dissolution or winding up of the Company.

b) Issued share capital

In February 2015, the Company closed a non-brokered private placement of 8,000,000 common shares of the Company at a price of Cdn\$0.06 per share for proceeds to the Company of Cdn\$480,000. In March 2015, the Company closed a non-brokered private placement of 3,000,000 common shares of the Company at a price of Cdn\$0.06 per share for proceeds to the Company of Cdn\$180,000. Arnold Kondrat, President, Chief Executive Officer and a director of the Company, purchased 3,500,000 of the shares issued under the February 2015 private placement and 500,000 of the shares issued under the March 2015 private placement.

In February 2016, the Company closed a non-brokered private placement of 67,000,000 common shares of the Company at a price of Cdn\$0.015 per share for gross proceeds of Cdn\$1,005,000 (the "Offering"). Arnold Kondrat, President, Chief Executive Officer and a director of the Company, acquired 60,000,000 of the shares issued under the Offering. Mr. Kondrat now holds 74,300,818 (or 48.5%) of the outstanding common shares of the Company. A portion of the proceeds of the Offering were used to repay short term, non-interest bearing loans totalling Cdn\$825,000 provided to the Company by Mr. Kondrat.

In June 2016, the Company closed a non-brokered private placement of 1,750,000 units of the Company at a price of Cdn\$0.12 per unit for gross proceeds of Cdn\$210,000. Each such unit was comprised of one common share of the Company and one-half of one warrant of the Company, with each full warrant entitling the holder to purchase one common share of the Company at a price of Cdn\$0.18 for a period of two years.

As of June 30, 2016, the Company had issued and outstanding 153,189,732 common shares (December 31, 2015 - 84,439,732) and no preference shares are issued and outstanding.

c) Common share purchase warrants

As at June 30, 2016, the Company had outstanding 875,000 (December 31, 2015 - \$nil) common share purchase warrants. No warrants were forfeited or cancelled during the six month period ended June 30, 2016 (year ended December 31, 2015 - \$nil). The common share purchase warrants are classified as a liability because they are a derivative financial instrument due to their currency differing from the functional currency of the Company. The common share purchase warrants are re-valued at year and period end, with a gain or loss reported on the consolidated statement of comprehensive income (loss). As at June 30, 2016, the Company recognized in the consolidated statement of comprehensive loss \$12,126 representing the fair value on this derivative financial instrument. The following table summarizes the Company's common share purchase warrants outstanding as at June 30, 2016:

Date of Grant	Opening Balance	Granted during period	Exercised	Expired	Closing Balance	Exercise Price	Exercise period (months)	Expiry Date	Remaining contractual life (months)
29/06/2016	-	875,000	-	-	875,000	\$ 0.18	24	29/06/2018	24

The value of the warrants was calculated using the Black-Scholes model and the assumptions at grant date were as follows:

	June 30, 2016	June 29, 2016
Risk free interest rate	0.48%	0.48%
Expected life	2 years	2 years
Annualized volatility	179.41%	179.41%
Dividend yield	0.00%	0.00%
Fair value (Cdn\$)	\$ 0.16	\$ 0.14

d) Loss per share

Loss per share was calculated on the basis of the weighted average number of common shares outstanding for the three and six months ended June 30, 2016, amounting to 151,770,288 and 130,874,815 (three and six months ended June 30, 2015 - 84,439,732 and 81,607,907) common shares. The diluted weighted average number of common shares outstanding for the three and six months ended June 30, 2016 amounted to 151,770,288 and 130,874,815 (three and six months

ended June 30, 2015 - 84,439,732 and 81,607,907) common shares. As at June 30, 2016, fully diluted earnings per share calculated by adding 3,215,000 (December 31, 2015 - 1,395,000) common shares related to stock options and 875,000 common share purchase warrants were the same as the basic earnings per share.

13. SHARE-BASED PAYMENTS

The Company has an incentive Stock Option Plan under which non-transferable options to purchase common shares of the Company may be granted to directors, officers, employees or consultants of the Company or any of its subsidiaries. No amounts are paid or payable by the recipient on receipt of the option, and the exercise of the options granted is not dependent on any performance-based criteria. In accordance with these programs, options are exercisable at a price not less than the last closing price of the shares at the grant date.

Under this Stock Option Plan, 25% of options granted vest on each of the 6 month, 12 month, 18 month and 24 month anniversaries of the grant date.

The following tables summarize information about stock options:

For the six months ended June 30, 2016:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the three and six month periods ended June 30, 2016

(Expressed in U.S. dollars, except for per share amounts - unaudited)

The model inputs for options granted during the six months ended June 30, 2016 included the following (no options were granted during the six months ended June 30, 2015):

Six month period ended	June 30, 2016
Risk free interest rate	0.54%
Expected life	3.00
Annualized volatility	128.69%
Dividend yield	0%
Forfeiture rate	2%
Grant date fair value (Cdn\$)	\$0.06

The expected price volatility is based on the historic volatility (based on the remaining life of the options), adjusted for any expected changes to future volatility due to publicly available information. The fair value at grant date is determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

During the six months ended June 30, 2016, the Company recognized in the statement of comprehensive loss as an expense \$27,210 (six months ended June 30, 2015 - \$nil) representing the vesting of the fair value at the date of grant of stock options previously granted to employees, directors and officers under the Company's Stock Option Plan.

14. COMMITMENTS

Lease Commitments

The Company has no future operating lease commitments as at June 30, 2016.

15. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

a) Fair value of financial assets and liabilities

The consolidated statements of financial position carrying amounts for cash and cash equivalents, advances receivable, balances due from and due to related parties, accounts payable, accrued liabilities and the employee retention allowance approximate fair value due to their short-term nature.

Fair value hierarchy

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between Level 1, 2 and 3 during the reporting period. Cash and cash equivalents is ranked Level 1 as the market value is readily observable. The carrying value of cash and cash equivalents approximates fair value, as maturities are less than three months.

b) Risk Management Policies

Loncor Resources Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the three and six month periods ended June 30, 2016

(Expressed in U.S. dollars, except for per share amounts - unaudited)

The Company is sensitive to changes in commodity prices and foreign-exchange. The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. Although the Company has the ability to address its price-related exposures through the use of options, futures and forward contracts, it does not generally enter into such arrangements.

c) Foreign Currency Risk

Foreign currency risk is the risk that a variation in exchange rates between the United States dollar and Canadian dollar or other foreign currencies will affect the Company's operations and financial results. A portion of the Company's transactions are denominated in Canadian dollars. The Company is also exposed to the impact of currency fluctuations on its monetary assets and liabilities. Significant foreign exchange gains or losses are reflected as a separate item in the consolidated statement of comprehensive loss. The Company does not use derivative instruments to reduce its exposure to foreign currency risk.

The following table indicates the impact of foreign currency exchange risk on net working capital as at June 30, 2016. The table below also provides a sensitivity analysis of a 10 percent strengthening of the US dollar against the Canadian dollar which would have increased (decreased) the Company's net loss by the amounts shown in the table below. A 10 percent weakening of the US dollar against the Canadian dollar would have had the equal but opposite effect as at June 30, 2016.

	June 30, 2016
	Canadian dollar
Cash and cash equivalents	177,171
Accounts payable and accrued liabilities	(492,521)
Employee retention allowance	(239,826)
Total foreign currency financial assets and liabilities	(555,176)
Foreign exchange rate at June 30, 2016	0.7742
Total foreign currency financial assets and liabilities in US \$	(429,817)
Impact of a 10% strengthening of the US \$ on net loss	(42,982)

d) Credit Risk

Financial instruments which are potentially subject to credit risk for the Company consist primarily of cash and cash equivalents, advances receivable, and due from related parties. Cash and cash equivalents are maintained with several financial institutions of reputable credit and may be redeemed upon demand. It is therefore the Company's opinion that such credit risk is subject to normal industry risks and is considered minimal.

The Company limits its exposure to credit risk on any investments by investing only in securities rated R1 (the highest rating) by credit rating agencies such as the DBRS (Dominion Bond Rating Service). Management continuously monitors the fair value of its investments to determine potential credit exposures. Short-term excess cash is invested in R1 rated investments including money market funds and other highly rated short-term investment instruments. Any credit risk exposure on cash balances is considered negligible as the Company places deposits only with major established banks in the countries in which it carries on operations.

The carrying amount of financial assets represents the maximum credit exposure. The Company's gross credit exposure at June 30, 2016 and December 31, 2015 was as follows:

	June 30,	December 31,
	2016	2015
Cash and cash equivalents	\$157,752	\$8,255
Advances receivable	\$62,176	\$42,000
Due from related parties	\$13,120	\$12,619
	\$233,048	\$62,874

e) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company attempts to ensure that there is sufficient cash to meet its liabilities when they are due and manages this risk by regularly evaluating its liquid financial resources to fund current and long-term obligations and to meet its capital commitments in a cost-effective manner. Temporary surplus funds of the Company are invested in short-term investments. The Company arranges the portfolio so that securities mature approximately when funds are needed. The key to success in managing liquidity is the degree of certainty in the cash flow projections. If future cash flows are fairly uncertain, the liquidity risk increases. The Company's liquidity requirements are met through a variety of sources, including cash and cash equivalents and equity capital markets. All financial obligations of the Company including accounts payable of \$465,976, accrued liabilities of \$148,551, due to related parties of \$87,172, and employee retention allowance of 593,322 are due within one year.

f) Mineral Property Risk

The Company's operations in the Congo are exposed to various levels of political risk and uncertainties, including political and economic instability, government regulations relating to exploration and mining, military repression and civil disorder, all or any of which may have a material adverse impact on the Company's activities or may result in impairment in or loss of part or all of the Company's assets.

g) Capital Management

The Company manages its common shares, warrants and stock options as capital. The Company's policy is to maintain a sufficient capital base in order to meet its short term obligations and at the same time preserve investors' confidence required to sustain future development of the business.

	June 30, 2016	December 31, 2015
Share capital	\$ 77,048,991	\$ 76,240,994

Employee retention allowance included in exploration and evaluation assets	17	\$ 2,450	\$ 2,450	\$ 4,900	\$ 4,900

17. EMPLOYEE RETENTION ALLOWANCE

The Company has an incentive employee retention plan under which an amount equal to one month salary per year of service is accrued to each qualified employee up to a maximum of 10 months (or 10 years of service with the Company and/or a related company). To qualify for this retention allowance, an employee must complete two years of service with the Company and/or a related company. The full amount of retention allowance accumulated by a particular employee is paid out when the employee is no longer employed with the Company, unless there is a termination due to misconduct, in which case the retention allowance is forfeited. There is uncertainty about the timing of these outflows but with the information
