

Loncor Announces Financings

Toronto, Canada – September 19, 2012 - Loncor Resources Inc. (the "Company" or "Loncor") (TSX-V: "LN", NYSE MKT: "LON") announces that it has filed a preliminary short form prospectus in connection with a marketed offering of common shares of the Company (the "Offering"). The Offering will be conducted through a syndicate of investment dealers (the "Underwriters"). The price of each common share to be issued under the Offering will be determined in the context of the market.

Loncor will grant the Underwriters an over-allotment option to purchase a number of additional common shares of the Company equal to up to 7.5% of the aggregate number of common shares sold in the Offering to cover over-allotments and for market stabilization purposes, exercisable at any time up to 30 days after the closing of the Offering.

The preliminary prospectus is still subject to completion or amendment. A copy of the preliminary prospectus will be available electronically at www.sedar.com. There will not be any sale of or any acceptance of an offer to buy the securities until a receipt for the (final) prospectus has been issued.

Newmont Mining Corporation ("Newmont") has expressed an interest in completing a non-brokered private placement of common shares of the Company at the Offering price, concurrent with and subject to completion of the Offering. The terms of this private placement are expected to be finalized once the terms of the Offering have been finalized. Newmont (through an affiliate) currently holds 9,700,000 (representing 16.35%) of the outstanding common shares of the Company and 1,000,000 common share purchase warrants of the Company, with each such warrant entitling the holder to purchase one common share of the Company at a price of Cdn\$2.30 until December 2012. The Company expects that Newmont's equity interest in the Company would increase to 19.99% on a fully-diluted basis upon completion of this private placement (and giving effect to the completion of the Offering).

The Company is targeting to raise total gross proceeds of approximately Cdn\$12 million pursuant to the two financings.

Loncor intends to use the proceeds from the financings for the exploration and development of the Company's mineral properties in the Democratic Republic of the Congo and for working capital and general corporate purposes.

Closing of the financings is subject to, among other things, receipt of all necessary regulatory approvals, including the approval of the TSX Venture Exchange and the NYSE MKT LLC.

This press release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities have not been and will not be registered under the United States *Securities Act of 1933*, as amended, (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

Loncor is a Canadian gold exploration company focused on two key projects in the Democratic Republic of the Congo (the "DRC") – the Ngayu and North Kivu projects. The Company has exclusive gold rights to an area covering 2,087 sq km covering part of the Ngayu Archaean greenstone belt in Orientale province in the northeast portion of the DRC. Loncor also owns or

controls 55 exploration permits in North Kivu province, covering 17,760 square kilometres, located west of the city of Butembo. Both areas have historic gold production. Led by a team of senior exploration professionals with extensive African experience, Loncor's strategy includes an aggressive drilling program to follow up on initial known targets as well as covering the entire greenstone belt with regional geochemical and geophysical surveys. Additional information with respect to the Company's projects can be found on the Company's web site at www.loncor.com.

Forward-Looking Information: Statements in this press release relating to the proposed financings and the Company's exploration and development plans are forward-looking information within the meaning of applicable Canadian securities laws. Forward-looking information is subject to a number of risks and uncertainties that may cause the actual results of the Company to differ materially from those discussed in the forward-looking information, and even if such actual results are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on the Company. Factors that could cause actual results or events to differ materially from current expectations include, among other things, failure to enter into definitive documentation in respect of, or complete, one or both of the proposed financings, the need to satisfy regulatory and legal requirements with respect to both financings, risks related to the exploration stage of the Company's properties, market fluctuations in prices for securities of exploration stage companies, the location of the Company's properties in the DRC, uncertainties relating to the availability and costs of financing needed in the future, the possibility that future exploration or development results will not be consistent with the Company's expectations, failure to establish estimated mineral resources (the Company's mineral resource figures are estimates and no assurance can be given that the indicated levels of gold will be produced), uncertainties related to fluctuations in commodity prices and equity markets and the other risks disclosed under the heading "Risk Factors" and elsewhere in the Company's annual report on Form 20-F dated March 30, 2012 filed on SEDAR at www.sedar.com and EDGAR at www.sec.gov. Forward-looking information speaks only as of the date on which it is provided and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking information, whether as a result of new information, future events or results or otherwise. Although the Company believes that the assumptions inherent in the forward-looking information are reasonable, forward-looking information is not a guarantee of future performance and accordingly undue reliance should not be put on such information due to the inherent uncertainty therein.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
